

**Action taken report of feedback from the Parents of Students for Session
2021-22**

Not many parents respond to the feedback forms, but as per the response received from most of the parents it is quite encouraging to get very good feedback. The parents seem quite proud of their wards being the students of this Department which has contributed to their overall development. Their suggestions are also noted with thanks by the teaching faculty and new and latest software's/course content are being introduced almost on regular basis.
